ReadMe

Catalogued for you, by MEGA Anon, because I love you. Some organization help done by another Anon, thanks dude.

Rookie also has a Newgrounds page: https://rookiewarrior64.newgrounds.com.

If you find something that is mislabeled or otherwise disorganized, I lurk regularly, so just mention my name; MEGA Anon.

Changes

- As suggested by Organizer Anon, comics and art are no longer separated by character.
  - Images are also tagged now.
- Shorts have been merged into comics. If it has more than a few images in a sequential story, it's a comic.
- Underscores aren't spaces.
- If a character's name is redundant(dundant) in a title - but not integral - I removed it. (e.g. `Band_Class_Molly` becomes `Band-Class.mo`, but `HippiXMati` becomes `Hippi-X-Matti.ca.ma`).
- Some missing images have been added.
- Capitalization is still all over the place. Fuck you, I do it for free.

Structure

- Art - One-Off pictures. If a couple images go together, they will be named `Series_Number_Title.tags` (e.g. `Internet-Celebrity_01_Mati-And-Icecream.ma.png`).
- Comics - Duh.
- Fan Art - Fan art based on Rookie's characters. When available, the work will be labeled `Title_Artist`. If something is uncredited (e.g. `Unknown`) and you know who drew it, please let me know.
- Other-ENF - Non-Rookie ENF/EUF content I've saved.
  - Grey Anon - Not sure what this dude's name is, but I like their work.
- To Be Organized - Keeping this archive up to date on my phone has proven to be too big a pain in the ass. I'll save stuff here and tidy up via computer every once in a while.

Tagging

Individual images and comics are tagged slightly differently; individual images will have tags alphabetically in their suffix, while comics will have tags in the folder name. "Guest" characters (only in one page) in comics will be tagged in their respective page.

Non-character tags will follow character tags where applicable.

E.g. `Tired-Of-Bullying_02.br.ma.ti.sfw.png` for a single image or `Tiffany's-Jogging-Nightmare.ma.ti` for a comic folder.

MEGA can search on these by including a period on either side of the tag (e.g. `.ma.`).

Character Tags

> Characters are not included if their presence is only >implied.
>
> Only named characters get tags, and only if they show up more than once.

Character	Tag	Description	Pics
Britney	br	Tiffany's friend	
Cassie	ca	Hippy exhibitionist	
Courtney	co	Nerdy college girl that can't be on time to save her life (or modesty)
